A Home with an Intelligent Mind

Explore endless possibilities

Make life simpler with **Home Intelligence**. Control every device in your home; from TVs to thermostats, shades to chandeliers. Add new-age security features to your home to protect your family and assets. Watch your child at the kids' play area while you are at work.

Advantage **Home Intelligence**

- ⦿ Intrusion and safety alarms
- ⦿ Wireless video surveillance
- ⦿ Window and door monitoring
- ⦿ Light control and mood lighting
- ⦿ Media and entertainment unit control

What can you do with Orvito Home Intelligence™?

- 🔌 **Secure** your home through wireless surveillance
- 🔌 **Control** all electrical devices and monitor energy usage. Open blinds and garage doors from your tablet or smart phone
- 🔌 **Automate** safety alerts and get notifications on your smart phone in case of gas leakage, fire incident or home intrusion
- 🔌 **Convenience** for you. Turn on/off any electrical device anytime, anywhere in the world
- 🔌 **Connect** and stay connected with your neighbors

You can do all this and more from ...

- 🔌 Your smart phone
- 🔌 Orvito tablet
- 🔌 Orvito cloud - web account
- 🔌 Smart switch panel

Anywhere in the world, automatically or based on the rules set by you.

Components

Component	Code	Features
 Video Door Phone	OV-WI-VDP-01-220	Two way audio, one way video to screen visitors
 Intruder Alarm	OV-WI-ALM-01-220	Receive alerts in case of intrusion
 Wireless Video Camera	OV-WI-CAM-01-220	Video monitoring, surveillance and archiving of video feeds on Orvito cloud
 Smart Switch Panel	OV-WI-SPx-0x-220	Control any electrical gadget, appliance or device
 Panic Alert	Platform 1.0	Alert neighbors and/or emergency service teams during a crisis
 Wireless Safety Sensors	OV-WI-Axx-01-220	Easily configurable sensors to detect gas leakage, fire occurrence and other hazards
 Wireless Motion Sensors	Platform 1.0	Easily configurable wireless sensors
 Smart Hub	OV-WI-HUB-01-220	Controls smart switch panels and safety/security sensors
 Orvito Tablet	OV-WI-TAB-01-220	Tablet to control and monitor your home
 Smart Phone Applications	Platform 1.0	Orvito apps to remotely control and monitor your home
 Orvito Cloud	Platform 1.0	Collect and analyze data to control your environment efficiently
 Energy Usage Analytics	Platform 1.0	Retrieve energy consumption data, analyze and control energy usage

Making your Enterprise Energy Efficient in Every Way

Get the interface that does it all

Enter the world of [Enterprise Intelligence](#). Monitor, analyze and improve the energy efficiency of your organization. With intuitive lighting, live video feed, automated safety alerts, auto door locks, video conference facilities and more - there is no end to the possibilities!

Advantage [Enterprise Intelligence](#)

- ⦿ Energy savings and analytics
- ⦿ Flexible and modular system
- ⦿ Hassle-free installation
- ⦿ Reduced fire risk
- ⦿ Increased productivity
- ⦿ Secured restricted areas
- ⦿ Maintenance free
- ⦿ Cost savings
- ⦿ Eco-friendly

What can you do with Orvito **Enterprise Intelligence™**?

- 🕒 **Conserve** energy and reduce your organization's carbon footprint and energy costs
- 🕒 **Control** all electrical devices and monitor energy usage through the energy analytics tool
- 🕒 **Convenience** at your fingertips. Control the HVAC anytime, anywhere
- 🕒 **Secure** your enterprise through live video surveillance and safety sensors
- 🕒 **Comply** with corporate policies regarding energy & safety audits

You can do all this and more from ...

- 🕒 Your smart phone
- 🕒 Orvito tablet
- 🕒 Orvito cloud - web account
- 🕒 Smart switch panel

Anywhere in the world, automatically or based on the rules set by you.

Experience Luxury through Technology..

Why Orvito?

Orvito brings you the next generation intuitive technology that offers flexibility, convenience and significant savings. We believe in engaging with the larger technology community to invent new products to help us serve our customers better.

At Orvito, we build, develop, execute and deliver products with strong after sales support & service to offer you a seamless product experience. Our one stop automation solutions are built on open standards to enable interoperability, thereby giving us the flexibility for continuous process improvement and innovation.

We also offer consulting service to create a truly customized solution for you and maintain our own cloud to store your live video feed, custom settings, energy usage analytics and more to help you manage your environment efficiently.

Orvito Connect

Our preferred partner program offers special benefits to builders, developers, security consultants and architects. To know more and to join our partner program please visit www.orvito.com/partner or email us at partner@orvito.com
