Orvito Achieves ISO 9001:2008 Certification

Orvito, Inc. achieves ISO 9001:2008 certification for quality management in design development, test and delivery of software & embedded system projects

Orvito, Orvito Technologies has attained the ISO 9001:2008 certification. It reiterates Orvitos efforts towards high quality standards on the output work products and taking a keen concern in design development, test and delivery of software & embedded system projects. Orvito, which is headquartered in Boston, has obtained the certification on 5 November, 2012 from TUV Nordic.

Mohan Vellanki, Vice President, Orvito Inc, said, "We are pleased to announce that we are now an ISO 9001:2008 compliant company. We believe that this demonstrates our constant commitment to process and discipline in engineering development. Within a year of starting up its operation in the India Development Center, Orvito has attained the prestigious certification. It asserts our dedication towards quality and focus.

ISO 9001:2008 is an internationally recognized standard for quality management. The standard is based on a number of quality management principles including a strong customer focus, the motivation and implication of top management, the process approach and continual improvement. Using ISO 9001:2008 helps ensure that customers get consistent, good quality products and services, which in turn brings many business benefits..
